

**Leading  
Manufacturer and  
Exporter of Knitted  
Garments**

# About Our Company

**30+**  
Years

We are one of the leading manufacturers, exporters, and suppliers of high-quality garments for Men, Women, and Kids — with specialization in Polos, Printed Tees, and more.

Our advanced production facilities are equipped with modern infrastructure that allows us to manufacture fabrics tailored to international client specifications.

**KNITTING**

**DYEING**

**PRINTING**

**EMBROIDERY**

## Infrastructure

To maintain precision throughout our manufacturing process, we utilize advanced machinery operated by a team of skilled and professionally trained experts.

## KNITTING

To maintain precision throughout our manufacturing process, we utilize advanced machinery operated by a team of skilled and professionally trained experts.

## DYEING

We specialize in a wide range of dyeing techniques including Solid Dyeing, Yarn Dyeing, Cold Pigment Dyeing, Garment Overdyeing, Tie & Dye, Dip Dyeing, and Indigo Dyeing.

# PRINTING

Our printing division features state-of-the-art automated M&R printing machines from the United States, including the innovative Alpha 8-M&R's advanced take on the oval-shaped press.

# EMBROIDERY

Our automated embroidery machines, manufactured are equipped to handle a wide range of embroidery techniques, including cording, roping, sequins, boring, and mirror work-adding significant embellishment to garments.

## CUTTING

Our cutting section is highly efficient, and supported by an in-house Gerber Cad system, which optimizes fabric usage and minimizes waste. We have the capacity to cut approximately 20,000 pieces per day.

## PRODUCTION

Every garment undergoes thorough inspection and is finished using a vacuum iron machine to ensure a crisp, high-quality appearance. Items are then carefully packed

# Our Services

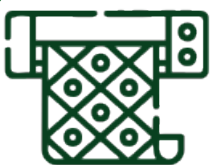

## Textile Dyeing

Textile dyeing is the process of applying color to textile materials such as fibers, yarns, or fabrics using various dyeing methods and techniques.

## Knitted Garments

This technique produces a flexible, stretchable, and breathable fabric, making knitted garments ideal for comfort and active wear.

## Digital Textile Printing

Digital textile printing is a modern method of printing designs, patterns, or images directly onto fabric using inkjet-based digital printers.

# Our Products

# Providing Premium-Quality Fabric

Premium-quality fabrics are distinguished by their superior fibers, advanced manufacturing techniques, and consistent performance across applications.

## Certification

The Sedex logo is a red circle with a white border, containing the word "Sedex" in white lowercase letters with a registered trademark symbol. It is centered on a dark green horizontal band that has a slight curve at its ends.

Sedex®

From sourcing raw materials to the final stage of production, we employ advanced quality systems and modern techniques to meet buyer expectations.
